PurePaleo™ Protein is a novel, great-tasting dairy-free protein powder, yielding 21 grams of protein per serving. It features HydroBEEF™, a highly concentrated, pure beef protein. HydroBEEF™ is produced through an exclusive hydrolysis and ultra filtration process that enables the protein to be hydrolyzed or 'split' into a high concentration of functional peptides. Delivering protein in the form of peptides allows for easier absorption and assimilation. This proprietary process begins with beef sourced from animals raised in Sweden, without hormones and free of any GMO grains, grasses, hay, and/or ensilage.

PurePaleo™ Protein is available in chocolate and vanilla flavors.

Highlights

- Over 97% pure protein from beef
- Produced using a natural, proprietary process which hydrolyzes the beef protein, yielding more peptides for easier assimilation
- This natural process maximizes levels of 'super peptides' of less than 500 daltons in size, and is free of any acids or enzymes that can result in a bitter tasting product
- Derived from an infusion process of beef that provides critical nutrients, peptides, amino acids, nucleotide fractions, vitamins and minerals – including vitamins A and D, and natural forms of B vitamins
- Contains complete proteins as well as a significant amount of collagen-specific amino acids, including glycine, proline, and alanine – making PurePaleo™ Protein helpful in supporting connective tissue
- Impressive protein nitrogen score of 101.5, which indicates high protein usability
- Free of common food allergens, making it an excellent choice for people who are sensitive to dairy, soy, rice or other types of protein
- Free of hormones
- No artificial sweeteners; sweetened with the natural herb stevia
- Made with non-GMO ingredients

PurePaleo™ Protein is ideal for those who:

- want a true Paleo protein source
- desire the unique protein profile that comes only from beef
- want the power of beef to build muscle, cartilage & ligaments
- are sensitive to dairy, soy, rice, or other common food allergens

Recommended Use: As a dietary supplement, mix 27 grams (approx. one scoop) in eight ounces of water or any other beverage per day, or as directed by your health care practitioner.
